In all testing areas (Science CAPT, SAT-ELA, SAT-Math), Stafford High School scored well above the state average. In addition, Stafford was ranked in the top half of the state in all testing areas. Specifically looking at the math section of the SAT, Stafford was well above the schools in its District Reference Group (DRG). As a matter of fact, since Stafford was 1.5 interquartile ranges above the upper quartile for DRG F schools, it is considered an outlier. It was also determined that Stafford was the **only school in the entire state** to be this far above the rest of their fellow DRG schools.

Statistical representation of the above information is attached. If you would like more information about this topic, please contact Marco Pelliccia at 860 684-4233 or email at pelliccim@stafford.k12.ct.us.
